NEWS OF THE WORLD.

Havoc Wrought by Storms in Spain and America.

CALIFORNIA RACERS ABROAD.

Parliament and Home Rule—Firemen's Tourney—A San Rafael Suicide—I. O. O. F. Officers.

(Special to the Herald by the Associated Press.)

MADRID, May 13.—A terrible hurricane has just swept across middle Spain. In this city seventy persons are known to have been instantly killed and two hundred others seriously injured. The wind struck the city with the suddenness of lightning. A train of cars was torn to pieces and broken into splinters, rods, dialogue and telegraph wires everywhere torn from their poles. Parks and in and about the city were devastated and in some cases entirely demolished. One thousand houses in the suburbs are entirely wrecked, and many cottages on the outskirts of the capital blown from their foundations. Roads were washed away and broken by the wind that may be said to have simply vanished. Telegraphic communication has been entirely discontinued. It is now impossible to obtain news from the provinces; but it is believed that the ruin wrought by the hurricane is widespread.

XENIA, DILUVIAN HORROR.

Mourning Results of the Terrible Rain and Wind Storm.

XENIA, May 13.—The work of finding bodies still continues to-night. The Mayor's office has been turned into a morgue and there are now twenty-two bodies there. The loss of property is great. Whole lumber yards and all their contents are gone completely. The houses in the devastated districts are despicable. Forces of men are busily engaged in clearing away and hundreds of people surround the places. Strangers have begun to pour into the city from every direction. The Council has appropriated \$1000 for immediate relief, and the Mayor has issued a proclamation that subscriptions have already reached the thousands. A committee is being formed to collect money for the homeless, which are many. All aid possible is needed from every source. The Michigan railroad has about sixteen men.

In addition to the above two more bodies were found this evening, being children, and they are not identified. The number of bodies found is twenty-five, with eleven still missing.

STORM IN ILLINOIS AND INDIANA.

DANVILLE, Ill., May 13.—A cyclone passed over this country to-night, do-
stroying a great number of farm houses and de-
moliishing the United Brethren church and school house. Mr. and Mrs. Joes-
eph Miller and an infant son of John A. Shaw were killed, and Shaw himself was fatally injured. The path of the cyclone was six miles in length and 150 yards wide.

INDIANAPOLIS, May 13.—A Journal reporter from Indianapolis, Indiana, re-
ports that a cyclone that point from Wilkinsburg fifteen miles distant, on the Indiana-Wisconsin and Western roads, that a strong wind blew down several buildings in the town except three. Samuel White was killed and his wife fatally injured and about twenty persons seriously hurt, some down in all directions and communication is cut off.

SPORT ON THE TUE.

California Racers at Louisville. Brighton Beach Races.

NEW YORK, May 13.—The Herald's Louisville, Kentucky, special says: Present indications point to a great race for the Kentucky Derby to-morrow, and the town talk is nothing else. Of 107 nominations, probably, at least twelve of the highest bred colts in the land will come to the post, numbering among them Haggis' Fox and Bea Ali, and Baldwin's pair, Solid Silver and Silver Cloud. Betting is in favor of the great colt, Fox. Two months ago a report was widely published that Fox had broken down. This was wholly unauthorized. The colt did show a little lameness in the spring, but that passed away and he has not been seen since. He is now in full training as a colt. Yesterday, with 123 pounds up, he worked a mile in 1:46 with great ease and went into the stable as playfully as a kitten. These facts to-
gether with his great record in two-year-old form, serve to make him a prime favorite.

BRIGHTON BEACH, May 13.—Rain all through the afternoon. The first race for maidens of all ages, three-quarters of a mile, was won by St. Elmo by a length. Gaudie, second; Janty third. Time, 1:29.

Sixty-four races, all ages, selling allowances, three-quarters of a mile.—Donald A won by two lengths, Pat Dally second. Commando, third. Time, 1:33.

Thirty-four races, all ages, selling allowances, seven-eighths of a mile.—Miller won by ten lengths, Moonshine second, Brunswick third. Time, 1:33.

Fourteen races, all ages, selling allowances, seven-eighths of a mile.—Santa Barbara, second; Jacobsen, third. Time, 1:28.

The fifth race, for three-year-olds and upwards, seven-eighths of a mile, was declared off.

FIREMEN'S TOURNAMENT.

The Contestants and Prizes Won in Salinas.

Salinas, May 13.—The fifth annual State Firemen's tournament closed with a grand ball at the Agricultural Building to-night. The bands were the Alertos of Salinas, Pilots of Santa Cruz, Pajaroas of Watsonville, and the Firemen of Salinas contended. Time of the Alerts to hydrant, 38 seconds; time 1:04. Exceeded by the Pajaroas, who did it in 40 seconds; time, 1:42. Pilots to hydrant, 29 seconds; failed to connect nozzle and hose overtake by water; time, 1:40. Exceeded by the Firemen, who did it in 30 seconds; time, 1:05. The Firemen were the ones which were very systematic and remarkably well run and co-acted.

Following State officers elected by the conventions: F. K. Kraemer, Jr., of Alameda, first vice-president; Robert Eley, Santa Cruz; second; M. F. Sterling, St. Helena; third; W. M. Vandeventer, Salinas; corresponding secretary, C. Oliver; treasurer, Gilway; treasurer, W. B. Joyce, Pacific Grove. Napa City was selected as the next place for the annual meeting.

The prize won to-day were: first, \$500 and permanent ownership of a diamond belt; second, \$250; third, \$175.

The Alerts had twice won the best and extraordinary efforts were made in this cause to win it.

Kern County Anti-Separatists.

LAWRENCE, Cal., May 14.—A large and enthusiastic meeting of citizens was held in Cottonwood Creek district, Kern county, yesterday, and an anti-separatist club was formed; all present signing the roll. The following gentlemen were elected delegates to the State Convention: Dr. W. L. Washburn, Dr. E. R. Hamilton. A club is now being formed at Lancaster. The people of this section are thorough-
a favor of irrigation.

HOME RULE.

Parsons' Relicence and Gladstone's Views on the Same.

LONDON, May 13.—It is stated that Mr. Parsons' relicence has caused misapprehension as to his views on the retention of Irish representatives at Westminster and the nature and extent of his concessions. Parsons believes that Labouchere's references to these matters in his recent speeches were not reported. Mr. Parsons will be at the meetings of the debate on the Home Rule.

At a conference to-day of members of Parliament from Scotch burghs, the supporters of Gladstone asked the Premier to call a meeting of the whole Liberal party, including the malcontents, at a conference. Mr. Gladstone, a member of Parliament, said he thought it would be best to leave the dispute question with the House. He now thinks that a gathering of the whole party would be reconciliation.

The report of the appointment of Mr. Gladstone as a military commandant in Ireland is a ridiculous invention. General Robert is a Conservative, and is openly hostile to Mr. Gladstone. No Garrisonian would be appointed to such a post.

The Dublin newspaper reported to the government that the Orangemen are preparing to fight.

The Orangemen's representations to the government were completely broken up and scattered by the wind that may be said to have simply vanished. Telegraphic communication has been entirely discontinued. It is impossible, as yet, to obtain news from the provinces; but it is believed that the ruin wrought by the hurricane is widespread.

DAILY HERALD.

Single Copies of the Herald, 5 Cents

Herald Steam Printing House.
The Herald Steam Printing House is not surpassed by any job printing office on the Pacific Coast, outside of San Francisco, in facilities for doing job work. Low prices good work and execution may be relied upon at this office.

Special Notice.

Advertisers notices of companies, societies, churches, etc., will only be inserted in the Herald as paid advertisements. Advertisers for personal worship a gratuities directory which will appear every Sunday morning.

The Herald is connected with the telephone system of Los Angeles city and exchanges. Advertisers for advertisements of job work may be seen through this medium to number 156.

The Herald is the official paper of the city of Los Angeles. The city's delinquent tax list and all other municipal notices appear only in its columns.

B. N. Howe is the Banta Ans agent of the Herald.

A Wrong Policy.

The policy of the City Council in narrowing Spring street is certainly wrong. It will not meet with public approval. No street in the city should be narrowed an inch. Many of the streets were laid out too narrow, in the beginning, while none are, or ever were wide. The tendency in all progressive, successful modern cities is towards wide streets. Narrow, alley-like passages in place of the spacious modern city avenue, were good enough for the contracted, walled towns of ancient times and the middle ages, and satisfy the requirements of Turks and Chinese of the present day, but they will not answer in a thriving American city like ours. The Herald not only looks to the wants of our present population, but has regard for the multitudes who will succeed and use our streets in the future for the vastly increased travel and traffic that are surely coming. The Council are narrowing Spring street between the sidewalks eight feet, while there is hardly room enough for the business already done on that thoroughfare to obtain the required space for its necessary uses. Why this is so, is one of the mysteries that only the occultism of a Councilman can fathom. We hope that no such experiment will be tried with any other street.

A Good Word from Senator Sherman.

We call attention to the letter in our local columns from Hon. John Sherman, U. S. Senator from Ohio and President of the Senate. Mr. Sherman who spent some time here a year or two ago, is, we are glad to learn, a friend of this section. He states that he will use his influence in advancing our local interests, and "especially" exert himself in assisting us to obtain an United States District Court. No man in the Senate yields a more powerful influence than Senator Sherman, apart from his position as President of that body, and with that influence in our favor in addition to our own delegation, there ought to be but little difficulty in obtaining the needed legislation. Our people will appreciate whatever Mr. Sherman may see fit to do in their favor in this regard.

The Great Storm.

The details of the great storm of the 12th ult. come to hand, it seems to have been even more disastrous and appalling than was at first supposed. Not only in Missouri and Illinois, but in Ohio the fearful visitation did its deadly work to an extent that will excite a deep and general sympathy. These disasters are becoming a most perplexing problem. Their frequency and destructiveness are constantly increasing, pointing to future conditions that are unpleasant to consider.

Fresh Groceries.

If you want good, fresh groceries, go to C. H. Bowes, the pioneer grocer, Spring Street Store, Telephone 435.

ANOTHER Arctic expedition is to start from New York some time next month, under the lead of a Col. Gilder. What good he expects to accomplish by his expedition is unknown. After the manifold failures of these efforts, it is nothing less than homicidal insanity to start out another of the same sort. The fate of the ill-starred Greeley party ought to be a sufficient warning for a generation to come, at least, against any other such folly.

To Digest the Vomits.

Requires more power than the solvent juices of the human stomach. And yet, in the form of those agreeable, yet digestible, tonics that are now coming in their constituents that have in their chemical affinity one with the other, are introduced into it. Are these so-called remedies? Are these not the Stomach Bitters, on the other hand, a simple medicine, harmonious in its composition, and which, when properly used, and properly dosed, will be perfectly agreeable effects, because it is a rational remedy suited to the stomach. It is a tonic in the true sense, because it stimulates and augments the regularity of the operations of digestion. Not the heat of the body which it confers, is a thorough repair of the damage inflicted by the violent and injurious effects of the tonics, but the heat of the body, which is the prime cause of the heat of the body.

Board of Supervisors.

The Board met with all the members present.

The petition for the establishment of the Felton school district was granted with boundaries as prayed for, as was the petition for the establishment of Enterprise school district.

A communication from Delmas E. Jenne requesting permission to compete for the \$1,000 prize for a remedy for insect pests, was read and referred.

Consideration of the petition for a road from Gestel's ranch east to Williston was postponed to May 21.

The petition for and remonstrance against the incorporation of Pasadena were read. Arguments in favor of incorporation were made by Mr. Hopkins, Dr. Alonzo Brock, Dr. Thomas Warner, Ball, Turner, Colson Pitcher, and Mr. Parker. A motion was made to adjourn, and final action was postponed until Saturday, May 14, at 10 o'clock, to which hour the Board adjourned.

Auction Sale To-Day!

Do not fail to secure a lot along the new cable road at the aristocratic "West End" to-day.

S. K. A. O. U. W.

Institution of Pacific Legion No. 16.

At the hall of Morris Vineyard Lodge A. O. U. W. Tuesday night for the institution of Pacific Lodge No. 16. Select Knights A. O. U. W. the meeting was called to order at 8 o'clock by Past Grand Commander Al. Cobler, acting Grand Commander.

Knights A. O. U. W., who appointed the following officers:

G. P. C. E. T. Shookmeyer, G. V. C. D. Vagan, G. L. C. Robt. Sharp, G. S. B. W. Meyers, G. J. W. Tolman, G. S. R. H. White, G. T. Wood, G. Phillip, G. G. L. Fred. Hollaud, Past Commander, G. Hazard, G. C. R. R. Vice Pres. G. H. V. W. Barrett, Lieutenant Commander, D. E. Barclay, Recorder E. P. Sather, T. F. Barnes, T. F. Barnes, J. A. Oliver, G. L. Ward, G. P. Lyons, Senior Workman, J. M. Damron, Guard of Legion, T. F. Barnes, Trustees, J. M. Damron, G. H. Barnes, Trustee, J. W. Damron, G. S. McWhinney, G. E. Belcher, E. P. Sutherland, J. M. Damron, A. O. Adams, J. McDonald, K. McAuley, Jas. C. Oliver.

The Population of Los Angeles.

Was about forty thousand, and we would say at least one half are trouble with some of them, and the other half are as complacent as can be. As a rule, the complaints are, according to statistics, that we are too numerous. As a rule, we are rapid in those places thought that the culverts under the railroad choked like peristalsis, producing a very disagreeable odor.

Great Destruction and Loss of Life at Xerxes.

DAYTON, Ohio, May 13.—The storm last night resulted in considerable damage. The rainfall filled all the Miami rivers bank full. The drainage of the city led the water to the main street, where business blocks occupy all the ground. The thoroughfares became rivers and flooded all the store cells, destroying goods. The Walk creek levee broke, flooding the west side, undermining structures. The railroad bridges and culverts were washed out, and telegraph communication was cut off from Dayton. Trains were delayed. Wrecks are scattered over every road out of Dayton. All kinds of started rumors are afoot concerning the loss of life. Reports from Springfield, Ohio, and the surrounding and a large number injured.

WHAT THE STORM DID.

DAYTON, Ohio, May 13.—Dayton is isolated. Telephone and telephones wires all down. The storm of wind and rain and nail struck Dayton and vicinity at eight o'clock last night. The small streams became torrents, sweeping away a mighty flood, running nine feet in three hours, inundating fifty acres of houses in the fourth ward, and drowning horses and cattle. Merchants in cellars were raised, bridges and houses were swept away, and all kinds of crops were washed out and washed away. Twenty houses were demolished, but one large number injured.

WHAT STRIKES WORST.

Were seriously injured, and were torn from their foundations.

THE Population of Los Angeles.

Was about forty thousand, and we would say at least one half are trouble with some of them, and the other half are as complacent as can be. As a rule, the complaints are, according to statistics, that we are too numerous. As a rule, we are rapid in those places thought that the culverts under the railroad choked like peristalsis, producing a very disagreeable odor.

RELIABLE WITNESSES.

Are to a nice family of boys and girls, and there are no others to an early grave by that horrible disease. Consumption is the most common disease, and it is certain that a large part of the greenbacks and fractional currency now outstanding has been destroyed by fire or flood and cannot be paid by the government. At the present rate of paying off the national debt it will be extinguished in twenty-five years. When the present Democratic administration took office, it was confidently predicted by Republicans that payments on the national debt would cease. This, like all the rest of their direful predictions, has failed of realization. The payments are regularly made, the government in all its departments is economically administered, and the decrease of the at first stupendous load of national debt goes from month to month as rapidly, if not more so, than ever before. In this respect, as in all others, President Cleveland and his Cabinet are giving the country an honest, able and patriotic administration.

ONE great reason why California has not grown rich and increased in population relatively as fast as Minnesota and some other States, heretofore, has been that owing to transportation facilities being lacking, large stretches of country away from the only railroad and its few branches have either been left entirely unsettled, or have been *built up* solely to the uses of scattered herds of sheep and cattle. The *cow* could not exist where he could not send his produce to market. This cause will not operate much longer. The State is being girdled with railroads. Every portion will soon be brought into communication by rail with all the remainder and the East. Fares and freights are gradually cheapening and markets in all directions being opened up. The California farmer has a bright outlook before him.

Medicated Inhalations.

No one can say against the use of medicated inhalations, as far as we are concerned, as far as we are in favor of them, so say Dr. Williams.

THE REV. GRO. H. THAYER, of Bourne, Mass., says that his wife, Mrs. Thayer, wife of Dr. Thayer, a consumptive, now cured, *old* by C. F. Heinsman, 122 N. Main street, who keeps the largest assortment of trusses and braces.

CONFINED TO THE BED FOUR MONTHS.

Simple, *old* by C. F. Heinsman's store; has proved to be a perfect cure.

That gum tree (eucalyptus) cough syrup, which is made from the eucalyptus tree, and during its introduction, and during its use, has been a great remedy.

THE Edmunds Bill.

WASHINGTON, May 13.—Senator Kunz, from the Committee on Finance, introduced a bill to prohibit the United States courts the power of ascertaining and settling private law claims within the limits of the territory derived from the original 13 states, and now in the possession of the United States.

NOT A WORD.

John Wieland's celebrated Philadelphia Lager Beer now on draft at the leading saloons. Slatkine & Bruning, sole agents, Dr. H. Godfrey, Nadeau Block.

John Wieland's celebrated Philadelphia Lager Beer now on draft at the leading saloons. Slatkine & Bruning, sole agents, Dr. H. Godfrey, Nadeau Block.

Medicated Inhalations.

No one can say against the use of medicated inhalations, as far as we are concerned, as far as we are in favor of them, so say Dr. Williams.

THE REV. GRO. H. THAYER, of Bourne, Mass., says that his wife, Mrs. Thayer, wife of Dr. Thayer, a consumptive, now cured, *old* by C. F. Heinsman, 122 N. Main street, who keeps the largest assortment of trusses and braces.

CONFINED TO THE BED FOUR MONTHS.

Simple, *old* by C. F. Heinsman's store; has proved to be a perfect cure.

That gum tree (eucalyptus) cough syrup, which is made from the eucalyptus tree, and during its introduction, and during its use, has been a great remedy.

THE Edmunds Bill.

WASHINGTON, May 13.—Senator Kunz, from the Committee on Finance, introduced a bill to prohibit the United States courts the power of ascertaining and settling private law claims within the limits of the territory derived from the original 13 states, and now in the possession of the United States.

NOT A WORD.

PILES! PILES! PILES!		
A SURE CURE FOUND AT LAST, NO MORE SUFFER.		
Dr. Williams' Indian Remedy—Piles has been discovered by Dr. Williams, an Indian from Ossipee, New Hampshire. He has a sure cure! the worst chronic case of 25 or 30 years standing. No one need suffer any longer. This wonderful Remedy—Medicine—Tincture, ointments and electuaries, do more harm than good. Dr. Williams' says the intense itching, (paroxysms) at night after getting warm in bed, acts as a poultice, gives the skin a healthy appearance, and propels the pus out of the body, for theitching of the private parts; and for nothing else. Read what the Hon. Dr. Williams' says about his Remedy. Dr. Williams' says: "I have used scores of piles cures, and it affords me pleasure to say that I have never known a single case of piles to remain in existence, and permanent relief as Dr. Williams' says the intense itching, (paroxysms) at night after getting warm in bed, acts as a poultice, gives the skin a healthy appearance, and propels the pus out of the body, for theitching of the private parts; and for nothing else.

THE CITY HALL.

Further Interviews With
Citizens.

CITY AND COUNTY BUILDINGS.

What the Mayor and Councilman
Willard Think—Mr. Max-
well's Letter.

A HERALD reporter has been gathering interviews with well informed people regarding the site for the city hall, and the proposed swap for the St. Vincent block. Among others who were encountered was the Mayor. His Honor is, on the whole, rather in favor of some such exchange as the one proposed. He thinks the present place is not sufficiently large. The one proposed is of the opinion will, in a few years, be found sufficiently near the center of business to deserve all the purposes of such a building. As to the relative value of the two, he has used it in his favor, and from parties who are interested in real estate in that neighborhood.

WALTER S. MAXWELL.

Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously ill for three days, and an appearance ungraced by any public edifice on the Pacific Coast. Arguments further than the desirability of being together could not be made, and the result was a swap in every case. The city and county offices are mostly used by lawyers and abstractors, and the idea of separating them by distance is not seen as an appearance ungraced by any public edifice on the Pacific Coast.

WALTER S. MAXWELL.

The one proposed is of the opinion will, in a few years, be found sufficiently near the center of business to deserve all the purposes of such a building. As to the relative value of the two, he has used it in his favor, and from parties who are interested in real estate in that neighborhood.

WALTER S. MAXWELL.

The Mayor of the Possibility of alienating the property from city purposes was called to his mind. The Mayor seemed to think there was little in that. He said it would require the very best legal talent in the city to pass on such a proposition and the views of others will be considered. As to the relative value of the two, he has used it in his favor, and from parties who are interested in real estate in that neighborhood.

WALTER S. MAXWELL.
